"हिंदी नाटक और रंगमंच "

प्रतिवेदन

महाविद्यालय के हिंदी विभाग द्वारा दि 08/01/2024 से 14/02/2024 की अवधि में "हिंदी नाटक और रंगमंच" विषय पर मूल्यवर्धित पाठ्यक्रम अर्थात Value Added Course लिया गया। कोर्स के लिए विभाग के 45 छात्रों ने सहभाग लिया। इसका अध्यापन प्रो. डॉ. अनिता नेरे एवं डॉ. व्ही डी. सूर्यवंशी ने किया।

छात्रों को अध्ययन के साथ साथ उनके सुप्त कला गुणों को विकसित करने तथा रोचकता के अक्सर उपलब्ध हो, छात्रों में संकोच एवं झिझक को दूर करने के लिए आत्मविश्वास की भावना जागृत करने तथा छात्रों का व्यक्तित्व विकसित करने के उद्देश्य से यह कोर्स आयोजित किया गया। महाविद्यालय के प्राचार्य आदरणीय डॉ. चंद्रकांतजी टीपावकर ने सम्मति देकर हमें प्रोत्साहित किया। फिर हमने इसकी समय सारणी तैयार की और उसके अनुसार अध्यापन कार्य संपन्न हुआ। अंत में छात्रों की प्रस्तुत विषय पर 20 अंको की परीक्षा भी ली गई तथा उन्हें प्रमाण पत्र भी दिए। इसकी संयोजक प्रो. डॉ. अनिता नेरे एवं विभाग के प्राध्यापकों ने कोर्स के दशस्वी आयोजन के लिए परिश्रम लिए।

"COMPUTER HARDWARE AND NETWORKING"

(VALUE ADDED SKILL BASED COURSE)

Objectives of the course:

- * To prepare technicians with specialized skills.
- * To provide knowledge and attitude to work in computer hardware and networking.

General Learning Outcomes:

1. Apply safe working practices.
2. Comply with computer environment.
3. Work in a team, understand and practice computer hardware skills, technical English to communicate with required clarity.
4. Learning and understanding problem base and success the difficult once

Skill Learning Outcomes:

1. Assembling and repairing of Personal Computer with all its hardware components.
2. Installation of different Operating System and all other application software.
3. Customization of Operating System and maintenance of system application software.
4. Assembling, repairing of Laptop and its hardware components.
5. Perform the operations of office package (word, excel, power point).
6. Installation of Printer, Scanner and troubleshoot their faults.
7. Setting up and configuring Networking System using various network devices.
8. Sharing and controlling resource and Internet connection through network.
9. Installation and configuration of Windows and Linux Operating System.
10. Perform all the functions with Electrical and Electronic Components related to Computer Hardware and Networking system.
11. Implement Network Security to protect from various attacks on networking.
12. Browsing internet and able to communicate through email.

Short Term Certificate Course in Apiculture

Syllabus

Department of Zoology

M. S. G. College Malegaon Camp, Malegaon, Dist.
Nashik

423105

1) Title of the course: - Short Term certificate course in Apiculture

2) Preamble of the syllabus:

Certificate course in apiculture is the Short term course of six months duration. The course to be implemented through this curriculum would allow students to develop a strong footing in the fundamentals and specialize in the disciplines of his/her liking and abilities. The students pursuing this course would have to develop in depth understanding various aspects of the bee keeping. The working principles design guidelines and practical skills associated with apiculture:

3) Introduction:

Beekeeping involves more than just producing honey. Agriculture Horticulture sector is dependent on healthy pollination of fruit, seed and nut crops for its survival. Beekeeping course includes-1) Hive management 2) Hive construction and maintenance3) Bee behaviour 4) Apiculture industry5) Honey production 6) Business administration and marketing 7) Pollination 8) Bee breeding and rearing 9) Bee diseases. Beekeeping has an essential role to play in this process and beekeeping can train the students to be skilled and highly employable. Beekeeping course offers many exciting career opportunities ranging from the hobbyist beekeeper through to ownership of a commercial beekeeping operation, research, or industry consultancy.

This introductory qualification has been designed for students interested in working with bees. Students gain the foundation skills and knowledge needed for further training in the beekeeping sector and get to explore the career opportunities in the industry. Students will learn all about bees and their behavior, the beekeeping industry, relevant work hazards, and bee

colony diseases. It will be taught how to construct, locate, feed and operate a beehive, and also how to extract honey. The students pursuing this course would have to develop in depth understanding various aspects of the subject .The working principles design guidelines and practical skills associated with apiculture. The course focuses on giving a broad practical skill base that will lead to employment in the beekeeping industry .

4) Objective:

The objective of the certificate course is introducing career and market-oriented, skill that have utility for job, self employment and empowerment of the students.

3) Eligibility:

The candidates having minimum XIIth class from any faculty passed. Admission will be given as per the selection procedure /policies adopted by the college, in accordance with conditions laid down by the SP Pune university, Pune.

4) Examination :

Evaluation of students after completion of theory and practical courses within six months. Examination will be of 100 marks each. Student has to obtain minimum 40% marks in each course. Practical course will be evaluated on the basis of attendance, punctuality, practical skill, result, oral and analysis. Evaluation of theory courses on the basis of multiple choice questions.

5) Structure of course:

Basic structure/pattern (framework) of the proposed certificate course syllabus for the six months.

- 1) Apiculture – Theory Paper I
- 2) Apiculture- Theory Paper II
- 3) Apiculture-Practical Paper III
- 6) Detail syllabus

Apiculture-Theory Paper I

Total lectures: 45

01)	Introduction to Modern Beekeeping & its Management.	4
02)	Honey Bee species.	4
03)	Classification and external morphology of Honey Bee.	3
04)	Scientific Beekeeping with <i>Apis cerana</i> & <i>Apis mellifera</i> .	5
05)	Division of labour and life cycle of honey bee.	7
06)	Bee behaviour (swarming, absconding, bee language etc)	6
07)	Beekeeping equipments & uses.	6
08)	Bee Breeding & colony reproduction.	5
09)	Inspection of Colonies and seasonal management of apiary.	5

Apiculture-Theory Paper II
Total lectures: 45

- | | |
|---|----|
| 01) Bee pollination importance of induced pollination in agriculture, horticulture& forest. | 05 |
| 02) Status of Beekeeping in India and abroad. | 05 |
| 03) Bee plants & floral calendar. | 05 |
| 04) Honeybee products & their values, uses & commercial production of honey, beeswax, propolis, pollen, venom, royal jelly. | 06 |
| 05) Economics of beekeeping. | 06 |
| 06) Export of bee products, prospectus & potentials. | 05 |
| 07) Beekeeping & self employment opportunities, Empowerment of women, tribes & farmers. | 04 |
| 08) Pesticidal poisoning in honeybees & its counter measures. | 04 |
| 09) Bee disease & enemies of bees. Preventive & control Measures | 05 |

Apiculture-Practical Paper III

Minimum of 15 practical are to be performed by students

1. Study of honeybee species with the help of domesticated & wild bee colonies.
I .*Apis cerena indica* ii. *Apis mellifera*. ii. *Apis dorsdata*.
iv. *Apis florae*.
2. Study of caste system & division of labour.
3. Study of modern method of domestication of *Apis cerena indica* and *Apis mellifera*
4. Study of life-cycle of *Apis cerena indica* and *Apis mellifera*
5. Study of beekeeping instruments & method of honey extraction.
6. Study of bee products & their uses.
7. To study method of wire embedding & attaching comb foundation sheet.
8. To study method of preparation of sugar syrup & pollen supplement.
9. To study method of inspection of bee colony. (*Apis cerena indica* and *Apis mellifera*).
- 10.To study chemical analysis of honey sample for testing its purity.
- 11.Microscopic observation of pollen grains from honey sample for identification of unifloral and multifloral honey.

12. To study bee enemies and bee disease and their control measures.
13. To demonstrate method of hunting wild colony of *Apis cerena indica* to start scientific beekeeping
14. To study artificial queen rearing by grafting method
15. To study method of colony division in *Apis cerena indica*.
16. To prepare floral calendar of local area
17. Field visit to Apiary/Bee research and training institute / Honey processing unit.
18. Project report based on field studies /laboratory work as per the guidance of academic advisor/ project guide. (The project should innovative ideas / thoughts/creative ideas etc.)
19. Submission of herbarium including the presentation of cross pollinated crops /bee plants.(flower structure)
20. Study of traditional method of beekeeping.

Certificate course

Title: Certificate Course in Analytical Techniques and their Applications

About College:

Maharaja Sayajirao Gaikwad Arts, Science and Commerce College were established in 1959 under renowned institute Mahatma Gandhi Vidyamandir's, Nashik. We are with under graduate and post graduate programs of Chemistry. In addition to this, we are also with M. Phil. And Ph.D. programs in Chemistry. Ph.D. programs in Chemistry are one of the significant research program in which about 70 students have completed Ph.D. degree. Our Chemistry Department has eighteen faculty members, out of which 10 are Ph.D. Our faculty members have research interest and they are presenting their research work in reputed international journals. They are also attending national and international seminars and workshops organized in India and abroad.

Aim & Scope:

The course mainly aims at imparting high level theoretical knowledge in advanced analytical chemistry, combined with excellent experimental skills. Analytical testing is a very important component of quality testing and validation of pharmaceutical products. In a pharmaceutical laboratory, a lot of work is being done on analytical equipments. Thus work force trained in handling such equipments is always in demand. The course also aims to providing rigorous training in advanced topics by means of theory and experimentation, hands on training of instruments like UV, FTIR, G. M. counter, etc. The course is offered to impart necessary skill-sets to Chemistry graduates so that they can be readily absorbed by the industry.

Programme Objectives:

1. Familiarise the learners with the basic facilities available in the college level Chemistry laboratory.
2. Impart knowledge of the basics of organization and management of science laboratories.
3. Train the learners in the operation and maintenance of simple instruments used in science laboratories.

4. Enable students to develop skills in common laboratory techniques.
5. Train the students in the procedures of procurement and storage of laboratory equipment and materials.
6. Enable the students to adopt appropriate disposal procedures and safety methods suitable for laboratories.

Course Structure and Syllabus

Eligibility:

Graduate, postgraduate or research students having Chemistry or Physics as a principal subject.

Course duration: 9 weeks

Lectures: 4 Lectures per week

Assessment:

At the end by a paper consisting of 100 marks (Theory 50% and Practical 50%). It will comprise multiple choice questions (MCQs), small experiment on use of instrument and short answer questions.

Evaluation of course for certification:

After completion of course exam is conducted. After successful completion of course the participants will be awarded course certificate.

Syllabus:

1. Introduction of Instrumental Analysis

2. FTIR Spectroscopy

3. UV-Visible Spectrophotometer

4. Rotary Evaporator

5. Refractometer

6. GM-Counter

1. Introduction of Instrumental Analysis

1. Need of chemical analysis
2. Methods of chemical analysis
3. Various methods of instrumental analysis and their appropriateness
4. Important applications of analytical techniques

2. FTIR Spectroscopy

1. Basic principle of infrared spectroscopy
2. Regions in infra-red band
3. Mode of vibrations
4. Fourier transform
5. Standardization/calibration of the instruments
6. Instrumentation and how to record the spectrum
7. Interpretation of spectra and application of FT-IR.

3. UV-Visible Spectrophotometry

1. Basic principle, Lambert's – Beer's law
2. Instrumentation of technique
3. Standardization/calibration of the instrument
4. Analysis using calibration and standard addition method
5. Tabulation and interpretation of results.

4. Rotary Evaporator

1. Operations technique in order to carry out distillation of various mixtures of chemicals.
2. High vacuum separation of different solvents.
3. Separation of solvent from targeted compound.
4. Applications in research and routine practical work.

5. Refractometer

1. Basic principle and Snell's law
2. Confirm the identity of sample by comparing its refractive index to known value.
3. Assess the purity of sample by comparing its refractive index to the values of pure substance.

6. G. M. Counter

1. Principle working and construction of GM counter.
2. Radioactivity of radioactive source in terms of counts.
3. Measurement of the plateau voltage of the GM counter
4. Radioactivity.
5. Particles are emitted by radioactive elements

Career Opportunities

Analytical testing is an essential part of pharmaceutical, biotech and all other verticals of the healthcare industry. The course is more profitable for the person who wants to make their career in various industries which works with pharmaceuticals, chemicals, cosmetics, and analytical testing laboratories, etc. This course has been tailored to suit the needs of employed as well as yet to be employed candidates targeting to take over the analytical division of the industry. Job roles and positions like that of laboratory assistants or technicians in reputed research institutes and pharmaceutical industries.
