परीक्षा में भी हिंदी भाषा को साध्यन बनाया गया है। और देना कोई भी सेव नहीं है कि एतने हिंदी
भाषा का प्रचलन ना हो। आज आदमी भी हिंदी भाषा में अपने विचार रख सकता है या लिख
सकता है। इतनी कोनत एवं उपलब्ध भरी हिंदी भाषा है। यह हमारे देश की उपलब्ध होने के
कारण देश के प्रत्येक नागरिक को हिंदी भाषा का गौरव करना चाहिए। अतिमान करना चाहिए।
इस प्रकार के विचार प्राचार्य डॉ. चंद्रकांतजी दिवाकर ने व्यक्त किए। वे महात्मा गांधी

इस समारोह के लिए विशेष अतिथि के रूप में डॉ. वीरनभाई राजभाई गोडगनिया
महिला महाविद्यालय पोरबंदर के मा. प्राचार्य डॉ. केतन शाह उपस्थित थे। उन्होंने हिंदी
विभाग को हिंदी दिवस की हार्दिक शुभकामनाएं व्यक्त की।

अतिथि वक्ता के रूप में उपस्थित बैंक ऑफ बडोदा पोरबंदर के मुख्य प्रबंधक
मा. अनुराग बजाज ने राजभाषा हिंदी का महत्व विषय पर एतने को मार्गदर्शन किया तो हिंदी
विभागाध्यक्ष डॉ. मनीष वाघेला ने हिंदी में रोजगार के अवसर विषय पर अपने विचार व्यक्त

किए। इस अवसर पर प्रो. डॉ. अनिता नेरे हिंदी विभागाध्यक्ष, म. स. गा. महाविद्यालय ने समारोह का प्रास्ताविक करते हुए हिंदी विभाग द्वारा लिए जाने वाले विविध उपक्रमों की जानकारी दी।

समारोह का आभार जापन हिंदी विभाग के डॉ. व्ही. डी. सूर्यवंशी ने किया तो सूत्रसंचालन हिंदी अनुसंधान केंद्र की शोधार्थी अर्चना कटन ने किया। इस अवसर पर दोनों महाविद्यालयों के बहुसंख्य छात्र एवं प्राध्यापक उपस्थित थे।

हिंदी भाषा केवळ भारतापुरती मर्यादित नसून ती आंतरराष्ट्रीय स्तरावर प्रसिद्ध झाली असून हिंदी भाषेतील साहित्य जगात अतुलनीय आहे.

विद्यार्थ्यांनी हिंदी भाषे वर विशेष प्राविण्य संपादन केले तर त्यांना देशातील कोणत्याही क्षेत्रात हिंदी अधिकारी किंवा इतर पदांवर नक्कीच नोकरी मिळू शकते. अशा अनेक संधी हिंदी भाषेतून विद्यार्थ्यांना उपलब्ध आहेत. मात्र यासाठी विद्यार्थ्यांमध्ये इच्छाशक्ती आणि कठोर परिश्रम घेण्याची आवश्यकता आहे .

विविध स्पर्धा परीक्षांमध्येही हिंदी भाषेला माध्यम बनवण्यात आले आहे आणि असे कोणतेही क्षेत्र नाही जिथे हिंदी भाषा प्रचलित नाही. सामान्य माणूसही हिंदी भाषेत आपले विचार मांडू शकतो किंवा दुसऱ्याचे

विचार समजू शकतो . हिंदी ही आपल्या देशाची राजभाषा असल्याने देशातील प्रत्येक नागरिकाला हिंदी भाषेचा अभिमान असायला हवा. असे विचार प्राचार्य डॉ. चंद्रकांत दिघावकर

Who is a mother in teacher day?

In Kindergarten the teachers are called mother teachers they teach the little ones basic life-skills. The role of a teacher is quite similar to that of a mother of helping a child to and grow - in intellect a child to learn and intellectually physically and emotionally.

Mother is the first teacher of a child. A child develops a connection with his/her mother. Mother teaches the mother to speak the why the mother thus.

A teacher is someone who educates others for a living. Teachers may work in a traditional school or they may teach in classes the computers. Formal education is divided into different levels.

Children Computers Works

The microprocess handles all the information that goes into and comes out of the Computer - The memory is hardware that holds programs and data while microprocessors use them. The programs and data are kept permanently on hardware called storage devices most computers have a storage called a hard drive.

One important thing when teaching kids about computers is encouraging communication. Let them ask questions and be patient as they learn how everything works. Getting used to typing or coding and other new skills can take time. Help them out when needed but let them do some things alone.

My Goal

I want to become a teacher. I now my goal is to be a good teacher, to inspire and encourage my lovely students to do best for my students and also for my school who give me chance to train me to myself and other.

I want become a good teacher because the job of the teacher is to make their students comfortable in all situations.

when they want to ask some thing they could ask easily without any hesitation.

I hope to propose thought provoking questions that will prompt students to think and learn on their own.

I will provide supervised practice to ensure the students in my classroom are learning.

What is internship and its benefits?

An internship is a temporary job role that's often related to one's academic field of study or career interest. It can often be a beginner in a career field, providing practical experience within a professional role.

Internships are often useful to college students and recent graduates, as many internship programs, as many internship programs provide college credit rather than an hourly pay rate. Internships may also often provide individual insight on a practical industry's culture and early operations. They assist a young professional with completing a degree or provide income while a student earns these degrees.

Internships offer students the chance to put what they are learning into action in a real-world environment. This helps you better understand the theories and strategies you have been reading about, cementing the learning process and giving you greater focus.

Assalamu- alikum . welcome to my portfolio . I am anam firdaus md fmeek . student of Mahatma Gandhi vidyamandir's Maharaja Sayajirao gaikwad arts sci & com. college . Malegaon camp . I am studying MA (Urdu) 1st year .

I choose to be a teacher because I want to touch lives . I could have chosen a different path where I could serve the society but i think that education is where I belong . I believe that education is the most important value any one will have and it has the greatest impact on the person and to everyone around them . while almost every child has the opportunity to gain access the secondary education . not everyone has the chance to be given quality education . Even though these young people are recognized as -future modes of the community , they continue to be misunderstood . As a future education teacher . I have come to the right place to eliminate the misconception about these and play a vital role in shaping successful people . My experience in one campus

Date: / /

Training made me realized that teaching the young generation needs time, understanding, compassion, passion and optimism. Teaching is a profession that one cannot be taken for granted. Sometimes it is exhausting, but these are taken away by just thinking how much you can enlighten their day.

I present this portfolio for you to read about my teaching and experiences during my practice teaching on-campus training. My goal is to show you my strengths that would make me an effective teacher.

I have completed my school from J.A.T Girls High School and Jr college. My higher secondary education was also completed from J.A.T Girls High School and Jr. college. My graduation in BA is also done from here and now I am student of T1A course from MSG Arts' Sci and Com. College Malegaon Camp.

I had start my interenship training for february 2024 to April 2024 in school located in Aysa colony named Shaikh Imam primary school Malegaon.

It was my first internship program which I was held from college. In this interenship

I had work to teaching on school's students named Shaikh Imam primary school.

Internship helps to highlight the importance of future and work. in the training we make student confident by creating awareness in the student that through his activity the student become aware of his / her future and his / her potential through his effort. Internships are particularly effective for graduate and post-graduate students. through internships, the student realizes his / her work potential and overcomes weaknesses and other deficiencies.

It accomplishes an excellent opportunity for a future teacher to hone his / her skills and I had started work for internship since 1 January 2024 it was my first internship program which I was held from college. In this internship I had work to teaching on tuition classes named Shaikh Imam primary school.

Internship helps to highlight the importance of future and work in the student by creating awareness in the student that through this activity the student becomes aware of his / her future and his / her potential through his effort.

Internship are particularly effective for graduate and post graduate students. Through internship, the student realizes his/her work potential and overcomes weaknesses and other deficiencies. Accomplishes an excellent opportunity for a future teacher to hone his/her skills and continue to practice teaching in a better way. It helps in developing skills.

I do work honestly and got certificate from the Shaikh Imam Primary School. My work time was that 12:00 pm to 5:00 pm. I had work in this time daily for 1 hour daily for 99 days without any holiday and without any absence. I was very honest with my work and try to improve my skills which can be help to me for my practical life.

In my college we all students have to do internship for our the paper titled 2.6 - On Job training we all friends do work by our own and get certificate from different farms, school, colleges, various type of shops and MMC etc.

I had work almost 3 month in this time period I observed and got experienced that the internship is a very beneficial for the students and it's also very help full in creative for all students specially it is more than help full which students who are

in the last time period in their educational course or last and ending term or semesters of college, after that they will enter in their practical life and they have to work as a professionally in their life for living of life.

Interenship is help to improve our skills which are related from practical life I learn a lot of things and I was able to improve my learning skills. I got experience of accounting and some knowledge of internet and knowledge related with internet. that things are totally different from our normal life. professional life and works are not easy and normal like we do in our daily life it is totany different and difficult before entering the professional life student should learn the skill and get abilities and skill like Damain knowledge communication skills, Effectiveness, positive attitude, work - Habits, creative Attitude, Ability of work in Team, problem solving skills, Honesty from work and integrity etc. when student got that above mentory abilities and skills than they can be improve their professional life and they were get development in their life and will be happy life also.

I am grateful to the management body of that organization and the entire team at Shaikh Imam primary school for their invaluable mentorship and support throughout this Journey.

* Skills for every teacher to master *

1) Communication:

* **Student:** To convey information, instructions and concepts. They must ensure that students understand the subject matter of the lesson.

Colleagues: To share ideas, resources, and best practices, contributing to professional growth and enhancing teaching approaches.

Parents: To provide regular updates on students' progress, discuss challenges and seek parental involvement to support student learning.

Stakeholders in the education community: To access resources, participate in professional development programs, or engage in collaborative projects.

2) Critical thinking:

* **Curriculum design:** Teacher critically analyze curriculum guidelines, educational standards and student needs to design effective and engaging lesson. They consider different teaching strategies and select the most appropriate approaches to support learning among their students.

Problem-solving: In the classroom, teacher encounter a wide range of challenges such as addressing individual student needs, managing disruptive behavior, or adapting to unexpected situations. Critical thinking enable them to develop creative solutions that balance the needs of the students and the overall learning environment.

Assessment: Teacher use critical thinking to develop meaningful assessments that effectively measure student learning and progress. They analyze assessment data to identify areas of strength and areas for improvement to help students understand their strengths and weaknesses.

patience: patience is a crucial skill for teachers at all levels because classrooms consist of diverse cultural backgrounds, learning styles, and intellectual abilities.

Teacher must recognize and respect these differences while maintaining a balance between their own expectation and each student's unique abilities. patience enables teachers to create an inclusive and supportive learning environment, fostering student growth and success.

For example, students have varying levels of understanding and learning needs.

Leadership: Teacher require leadership skills both inside and outside the classroom. within the classroom, teachers serve as leaders who guide and inspire students toward academic success and personal growth. Beyond the classroom, teachers also demonstrate leadership when interacting with fellow teachers and school administrators, contributing to a collaborative educational environment.

For instance, Teachers can exercise leadership skills by setting high expectations and providing a positive role model for students to emulate.

2) Time management.

Teaching Responsibilities
Administrative tasks
Lesson planning
Student assessments
Professional Development
Personal well-being

Empathy: Acknowledging and validating students' emotions and experience.

Being patient and understanding when students face difficulties or make mistakes.

celebrating and appreciating students' diverse background, cultures, and perspectives.

providing individualized support and guidance to students based on their unique needs and goals.

incorporating diverse and inclusive learning materials and perspectives in the curriculum.

Self-Evaluation: Reviewing your lesson plans and assessing whether the desired learning outcomes were achieved and if students were actively engaged in the learning process.

identifying areas where students may be struggling or excelling and reflect on your instructional strategies to better meet student needs.

Conclusion

In conclusion my internship experience as a tuition teacher has been both rewarding and enlightening. Throughout this period, I have had the opportunity to work closely with students, understand their unique learning needs and contribute to their academic growth here are the key takeaway from my internship.

Student-Centered approach: I have learned the importance of tailoring my teaching methods to accommodate different learning styles. By recognizing individual strengths and areas for improvement, I have been able to provide targeted support to each student.

Effective Communication: Clear communication is essential in the classroom. I have honed my ability to explain concepts concisely and engage students in meaningful discussion. Active listening has also played a crucial role in building strong teacher-student relationships.

Creating a positive Learning Environment: I have strived to create a welcoming and inclusive classroom culture. By celebrating diversity and promoting mutual respect, I have fostered an environment where students feel comfortable expressing their thoughts and asking questions.

Assessment and Feedback: Regular assessments have allowed me to gauge student progress and identify areas that need improvement. Constructive feedback has helped students understand their strengths and areas for growth.

Adaptability ⇒ Teaching is dynamic, and I have learned to adapt to unexpected situations whether's adjusting lesson plans or addressing individual student needs, flexibility has been key.

Continuous Learning ⇒ My internship has reinforced the importance of staying upate with educational trends and technology. I have actively sought professional development opportunities to enhance my teaching skill.

INTRODUCTION

In this report, I will provide an overview of my internship experience in the field of teaching. Over the course of my internship, I have been actively involved in various aspects of teaching including lesson planning, classroom management and student engagement. This report aims to document my observations, reflections and the skills acquired during this period.

Education is usually planned according to the individual and societal need and is the most veritable instrument for change in any society. The quality of education provided in any society and the nature of change affected by that education are both dependable on the quality of

Teacher education must help the trainee teachers acquire requisite knowledge and skills and develop adequate ability to transfer the acquired knowledge to others. The "Teacher" needs to be educated and trained for professional efficiency and inculcated with a positive attitude that will enable her go through the training and come out well for the responsibility ahead. Practice teaching is an integral part of the teacher education programme which is graded towards preparing the new entrants into the teaching profession. It occupies a key position in the teacher education programme. It is a culminating experience in teacher education. Practice teaching is for trainee teachers what internship is for pupil engineers, student doctors and pupil

INFORMATION ABOUT SCHOOL.

The "UMMEED URDU HIGH SCHOOL" is the best school. Education is an essential part of our lives. We are nothing without knowledge, and education is what separates us from others.

I will tell you why I love my school and what my school has taught me.

In this school have many more students. In nursery lower KG, upper KG, Grade (I, II, III, IV). In my school, there are very responsible teachers about students and their future.

My school is my second home where I spend most of my time. Above all, it gives me a platform to do better in life and also builds my personality.

DESCRIPTION OF INTERNSHIP & EXPERIENCE

With my internship in particular, I knew that it was going to be a learning experience for myself just as my student. I am extremely grateful for being able to experience the ins and outs of teachers with my cooperating teacher, Ms. XYZ. as she had individually broken down every single idea that she had in mind for the class. In her daily feedback, she provided reasoning in her actions and method and helped me to understand why certain things were done in a certain way whether that be creating lesson plans or getting ready for the warmups at the beginning of the day she had given example of her own experience as well as advise as to how to move forward. In my opinion a healthy and supportive cast is not something that is usually brought up. mentorship in particular is one of the most crucial parts of a successful internship. These were days where I was doing XYZ just for the sake getting through. One day, my ET had reiterated the importance of being articulate with my actions as well as being accountable with what was going on in the classroom. Although there were plenty of days where I knew my own social battery was becoming depleted and all I wanted to do was drink my coffee in a nice secluded spot. I learned to grit my teeth and put forth my best effort irregardless of whatever I was feeling at the time.

It's an interesting period in life I would often reflect and think.

Of the limbo situation that I was in. Even though I was throughout the year becoming more adjusted and taking more responsibilities in regards to teaching four different 11th grade classes. I still had felt as if those same feelings from the first week could creep back at any time and set me back. Halfway through, I did become aware of how difficult it was balancing all the different parts of my own life as I was still juggling two part time jobs, my time spent with friends and family as well as the internship. Looking back now, it's easy to understand and feel sorry for myself for having to go through all that, but that would be an easier route. I willingly understood what was expected of me with an internship experience breaking down halfway through was never something that has been a part of my life; I would rather be able.

CONCLUSION

In conclusion, As my internship comes to a close, I find myself reflecting on the incredible journey I've embarked on with Principal Financial Group. From the every first day, I was welcomed into a world of sales and finance that challenged me, pushed me, and ultimately transformed me into a more capable and confident professional. In this LinkedIn article, I want to share the profound insights I've gained, the challenges I've conquered, and the significance of mentorship in shaping my experience.

Throughout my internship, I faced various challenges that demanded learning industry knowledge and technical skills. Balancing the demands of a unique sales environment while diving deep into the complexities of financial services was challenging but provided remarkable opportunities for growth. The most valuable lesson I learned was the importance of effective communication. Learning how to converse with my effective communication. Learning how to- with my co-workers and advisor about financial concept and presenting them underscored the necessity of clear and tailored communication. These experiences honed my interpersonal skills and highlighted the art of adapting message to diverse audiences. Among the multitude of lessons what stood out to me was the significance of collaboration.

Teamwork.

One of the cornerstones of my internship experience was the significance of mentorship. My mentors not only guided me through technical aspects but also shared their own career trajectories, providing me with a broader perspective on my professional journey I wanted to use this as an opportunity to thank.

I extend my deepest gratitude for the invaluable experiences and personal growth it has provided. The lesson I've imbibed, the challenges I've conquered, and the insights I've gained have indelibly transformed my perspective on both professional life and mentorship.

I am thankful to the organization for this transformative opportunity and my leaders for their unwavering support and guidance.

Introduction.

Experience is the mother of all learning & an internship program suggests of experience learning which indeed is the best kind of learning. An internship is a period of work which is offered by an institute or office, for the purpose of industrial learning to students. On other hand, students too can put the institute or industry on benefits while taking exposure to working environment relating to their specific field of study.

In this report provide an overview of my internship experience in the field of teaching over the course of my internship, I have been actively involved in various aspects of teaching, including lesson planning, classroom management, & student engagement. This report aim to document my observation, reflection & the skills acquired during the period.

- Internship in school need pure quality & disciplined behavioural approach.
- Employees in an educational institute values time & knowledge.
- Teacher give 'real, Time' efforts to the overall goals of education.
- Teaching is a responsible job

Importance & Benefits Internship.

- Helps in Achieving the educational objectives.
- pupil teacher gain some experience.
- proper use of methods & Techniques.
- Faces real situation.
- Develops positive attitude.
- Increase self confidence.
- promotes practice skill & works.
- Boost our confidence.
- Build networks.
- Help to choose right carrier.
- Discover new interest.

Learning objectives.

- To develop teaching competence through teaching experience.
- To learn to create a positive & productive classroom environment.
- To build my self-confidence in professional setting.
- To develop competence in creating & using instructional materials & techniques.
- To learn to utilize technology for instruction & communication.
- To engage in self-evaluation in professional goal setting.
- To establish professional relationship with fellow college.
- To learn to create & implement effective lesson plan.
- To understand the school environment.
To develop desirable professional, interest, attitude & ideas relative to teaching profession.

ABOUT THE INSTITUTION.

Name of the school.

The malegaon girls high ~~se~~ school & Jr. college
malegaon.

year of the establishment: 1987

location: In urban Area - Malegaon MC blocks of
city: Malegaon.

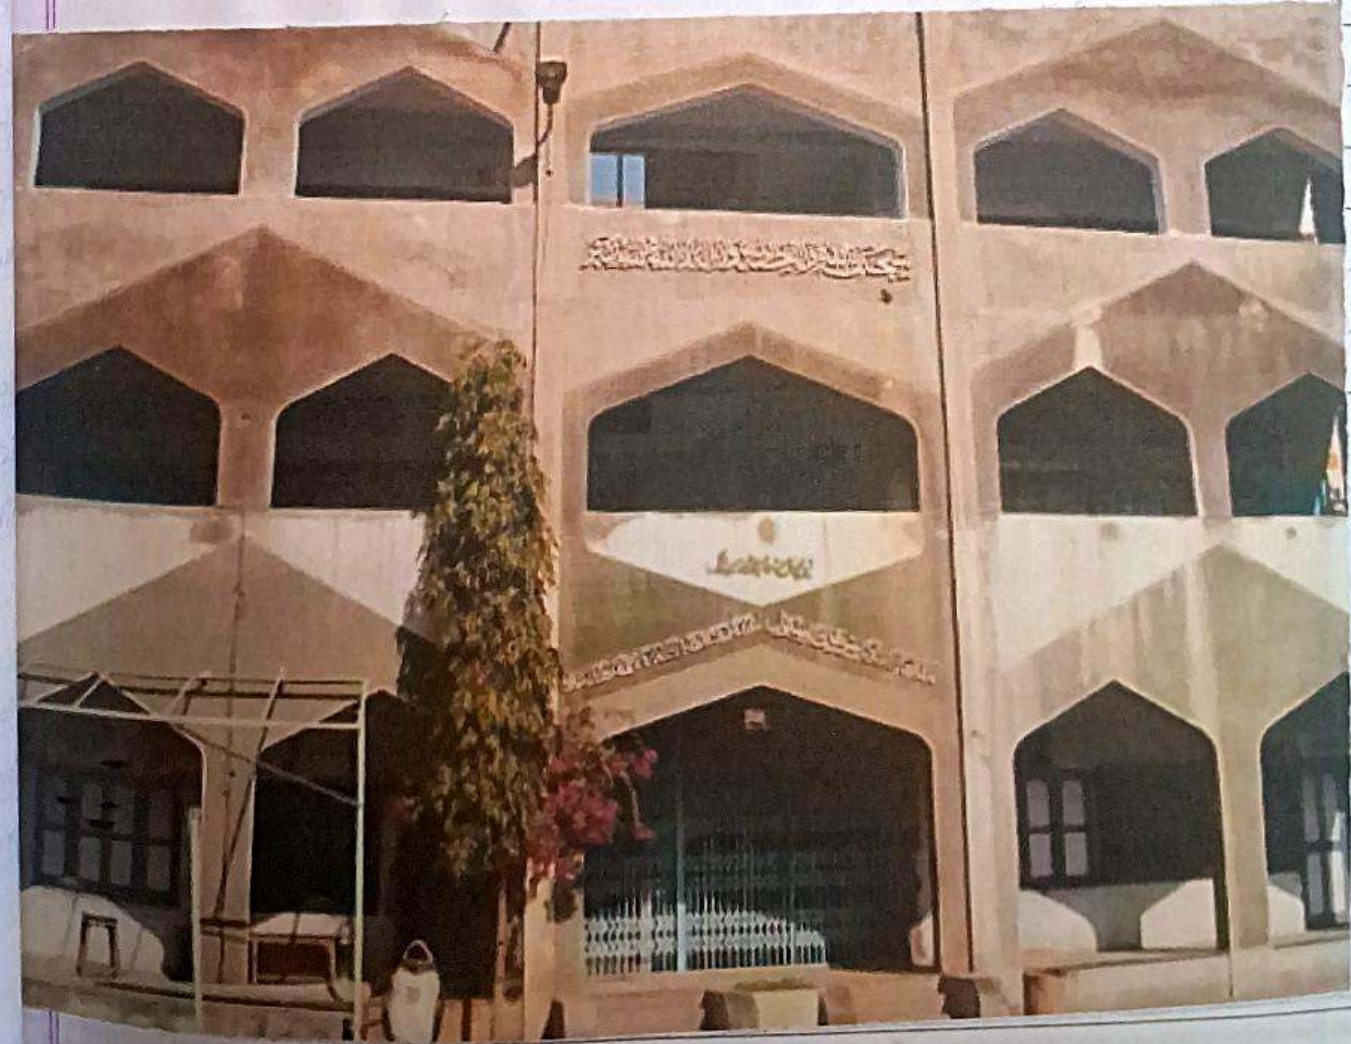

Management = managed by p.vit Aided.

Head of the school = Rehan.

The malegaon Girls high school was established in the year 1987. The school consist of Grades from 5 to 12. The school is Girls & does not have an attached primary section Urdu is the medium of instructions in this school. This school has approximately 2070 as student strenght and number of teacher are 88.

The school has have electric connection, source of drinking water in school is Tap water, school has 13 girls toilets, has a play ground & a library consisting 1214 books.

school has 25 computers for Teaching & learning purposes. The school is not having a computer aided learning lab. School is provided & prepared in school permises providing mid-day meal.

Teaching Methodology.

The Term teaching methodology refers to the management, strategies & general principal use for class room.

I will try to explain my teaching methodologies in term of

- ~~The~~ Teaching Theories
- Mix of traditional & modern teaching method.
- Flexible approach.
- contemporary style.
- programmed instruction method.

I choose low tech, student centered interactive approach, as teaching method. because I wanted to be a facilitator to my students more than a Authority. My methodology was balanced blend of both-traditional & modern teaching method. My teaching method is very much flexible & personalized flexible approach is the 'new-age-method' my contemporary approach was based on meaning & example-based strategies.

CLASS-ALLOTMENT.

For my period of internship, I was assigned with class Vth to VIth.

I was given the task to teach Urdu literature & poem in these classes.

ON THE JOB LEARNING.

• lesson planning: ⇒

Lesson planning is a plan action which is implemented by the teacher in classroom.

During my internship, I learned to prepare a lesson plan.

Preparing a lesson plan help me focus on what is to be taught in the classroom within the limited time & kept me & student on right track.

• Use of Teaching learning material. it is an instructional material used by teachers to be more effective like use of charts, flashcards, photograph etc.

• Readiness of student in Teaching learning process.

Another thing that I learned during

internship is readiness of students to learn if a child is ready to learn, they learn more quickly & effectively, if not their mind would just wander off somewhere.

- * Importance of reward & punishment.
Getting a reward on specific result encourage them to do better with more interest.

• Time management:

Time management is method of planning & balancing time bet different activity.

patience::

one of the importance characteristic a teacher should have is patience.

- Communication skills.
- Stress management.

INTERNSHIP EXPERIENCE.

With my internship particular, I knew that it was going to be a learning experience for myself. I'm extremely grateful for being able to experience the ins & outs of teaching with co-operating teachers, they had individually broken down every single idea that she had in mind. Although there were plenty of days where I knew my own battery was becoming depleted & all I wanted to do was to drink my team in a nice secluded spot. I learned to grit my teeth & put forth my best efforts irregardless of whatever I was feeling at that time. It's an interesting period of in life, I would often reflect & think of the limbo situation that I was in. I willingly understood what was expected of me with an internship experience, breaking down halfway though was never some thing that has been a part of my life. I would rather be able to get through difficult times & understand that I'm better for it. Thank you so much for giving this best movement of my life.

SELF EVALUATION

I started internship keeping in mind that I'll try to learn knowledge in teaching as much as I can help student, in every aspects.

During the period of internship it helped me to developed basic skill of a school teacher.

It thought how to conduct on effective classroom learning. It help me to learned that patience & communication are the keys for teaching. When I first jointed the school as an intern I was nervous & insecure as it was an unfamiliar environment for me I was anxious about students not being able to accept me normally & understand me but as the time passed was owd get each other.

In views of teaching one of the thing helped me the most was preparing lesson plan & teaching learning materials also learned the various ways to make lesson interesting like doing some activity. I encouraged the senior students of school & told them to encourage their juniours.

Internship help me to understand the role of Teacher in developing The Basic skills of students & how the can motivate & inspire student into learning.

CONCLUSION

Being able to do an internship in teaching gave me an opportunity to understand the role & value of a teacher in the lives of students & how a teacher can shape students.

A trainee should take the OJT seriously as it can be a powerful tool for a person in preparing for the next chapters of life as a professional.

It can possibly be a source of recommendation where we take that big lift from being student to career professional someday.

My overall experience was based on 'give & take' strategy. It helped me understand what I'll be signing-up for, while being helpful to others, it also helped me contemplate my career choices, while learning more about humans of different age-groups. This experience made learn of responsibilities & how students depend on their teachers.

My
Goal.

To Achieve
my goal

① I am a teacher at heart. My goal is to inspire and energize students with ideas and possibilities that will change them to expand their perception of teaching and learning and dare to consider our professional future with optimism and excitement.

② Students don't need a perfect teacher. Students need a perfect teacher who will make them excited to come to school and grow a love for learning.

③ "Education is the key to success in life and teachers make a lasting impact in the lives of them and students."

Project Introduction

Q :-> What is Internship and its benefits.

An Internship is a temporary job role that's often related to one's academic field of study or career interest. It can offer a beginner in a career field practical experience within a professional role. Internships are often useful to college students and recent graduates, as many internship programs, as many internship programs provide college credit rather than an hourly pay rate. Web

Designing

Web Designing is the process of planning, conceptualizing and implementing the plan for designing a website in a way that is functional and designing process. Websites have an array of elements easy to navigate. Web designing essentially involves working on every attribute of the web that people interact with, so that the website is simple and efficient allows users to quickly find the information they need, and looks, visually pleasing. All these factors, when combined, decide how well the website is designed.

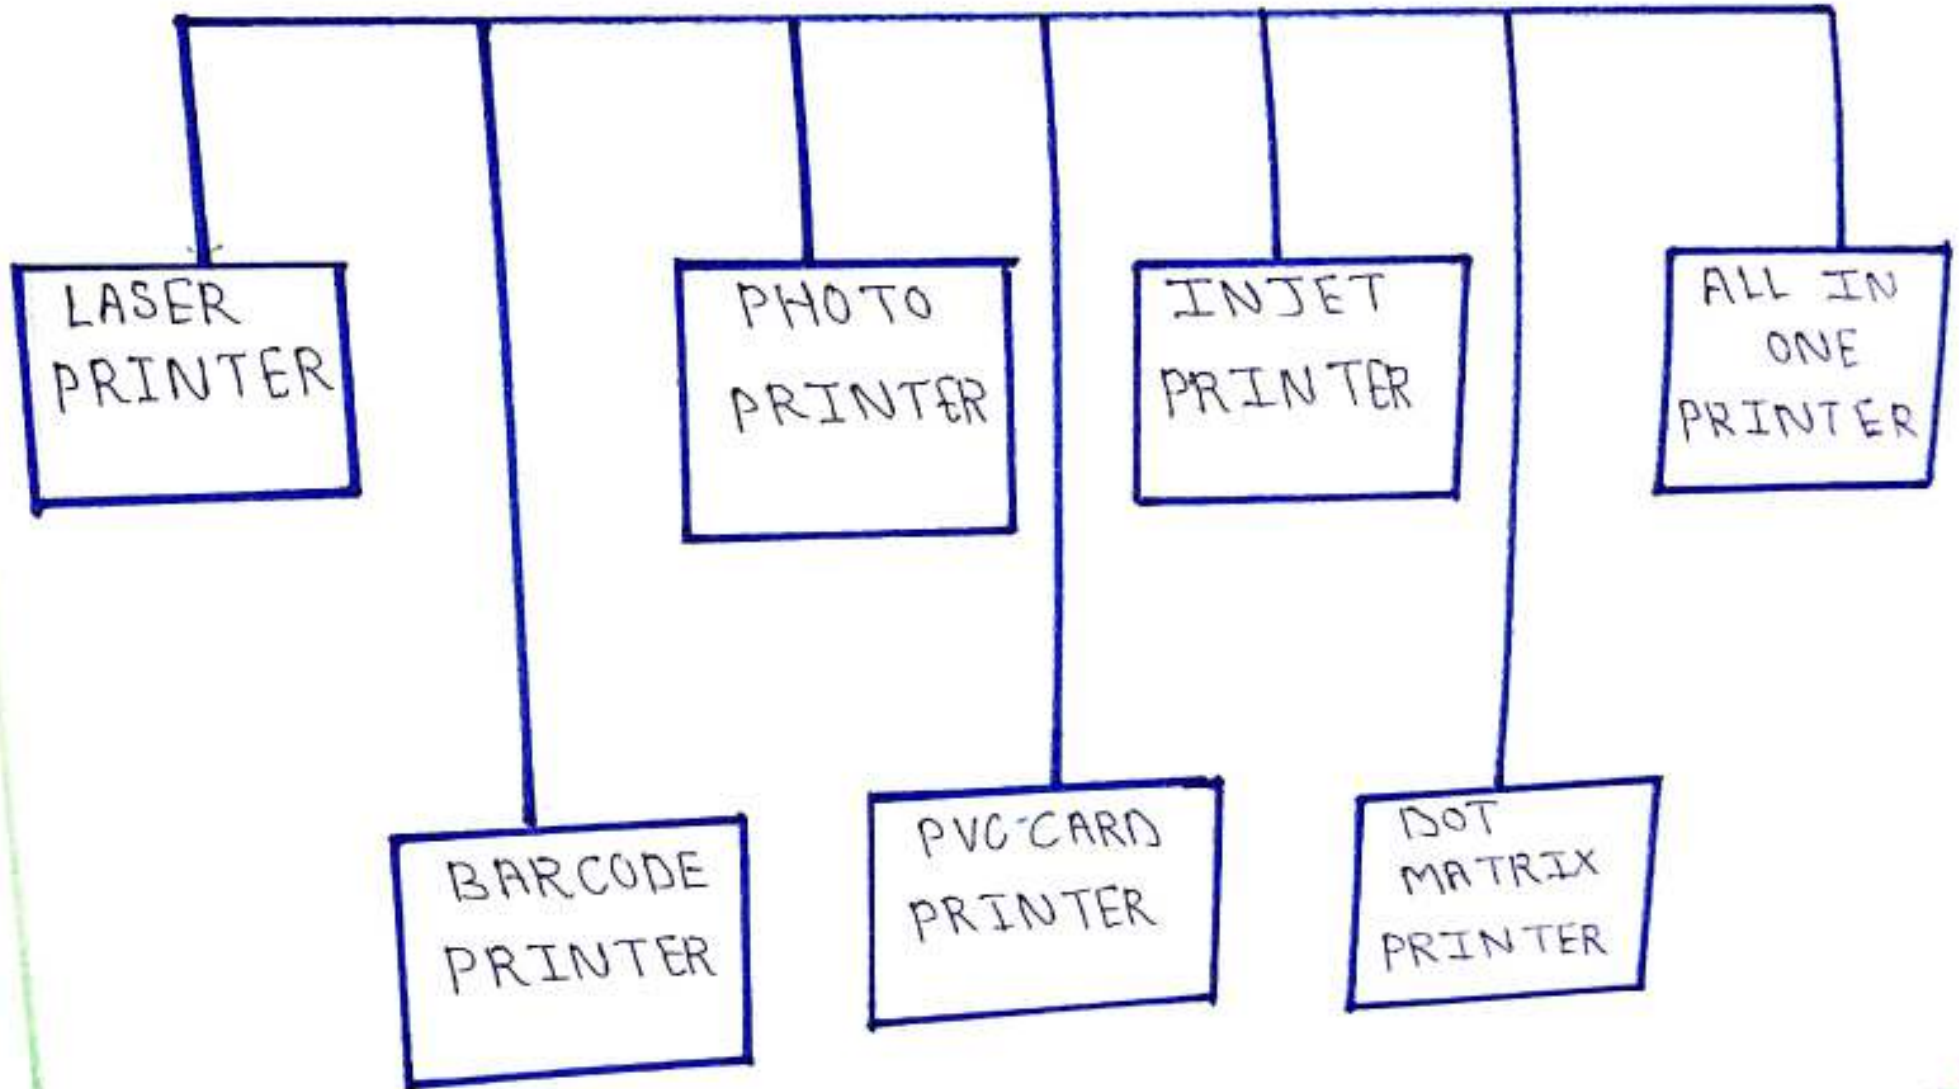

Computer Network

A computer network is a group of interconnected nodes or computing devices that exchange data and resources with each other. A network connection between these devices can be established using cable or wireless media. Once a connection is established,

communication protocols, as TCP/IP, Simple Mail Transfer Protocol and Hypertext Transfer Protocol — are used to exchange data between the networked devices. Network devices operate as physical devices that enable communication and interaction between hardware on a computer network. Each networking device operates in a distinct computer network segment and performs distinct functions. A network may require hundreds or thousands of different network devices to maintain and build out various LAN and WAN. Network devices like the hub, bridge, repeater, modem, router, gateway etc. are basic building blocks of an extensive network.

Printers

Q: What are the types of PRINTERS and their Uses?

A printer is basically an output device which prints a hard copy of the electronic data that is stored in the computer or any other devices. The electronic data may include documents, text, images or even the combination of all three particulars, printers are available for printing particular data types.

Today, in India market, there are a number of companies selling all types of printers. Home searching the right printer which suits you the best for you is a pretty tedious task. To make your work easy, we have brought this article which includes different types of printers and their uses. Also we have listed some of the best printers based on their features and reviews.

Laser Printer

Laser printers make use of light or a focused beam for transforming the text and image on the paper. Inside the laser printer, a cylindrical drum is present known as photoreceptor on which laser beams are fired. This is done on the paper passes through the printer. The laser printing machine prints images and text on the photoreceptor. One can use a laser printer for getting instant print during emergencies.

Photo Printer

photo printing machine are basically an inkjet printer which is designed for printing on photo papers which are extremely white. These photo papers used in photo printers are coated with a coating which ensures that the ink used for printing the photo is not smeared off. Photo printing machines are able to print photos of all sizes. Though some are used specially for printing only wallet-sized photos of 3x5 or 4x6.

Inkjet Printer

Inkjet printer machines are the regular used printers of the computers. Inkjet printers use a special type of ink for printing on the paper. Hence inkjet printers are particularly used to get high quality color prints. They are also capable of giving instant print output. These machines are preferred by those people who need prints once in a while and not on a daily basis.

Inkjet printing machines are available ranging from inexpensive small consumer models to professional expensive models.

All in 1 Printer

Label printers are not the same as ordinary printers they have a special feed mechanism for handling the rolled stock. Label printers are self adhesive label material or and tag card stock for printing purpose. Label printers make use of various types of label materials which include paper and other types of label synthetic polymer / plastic materials.

The application of laser printers is very vast they are used in retail price marketing, laboratory and blood specimen marketing, label packaging and management in the fixed assets. Label printers are also used in supply chain management.

Barcode Printer

Barcode printers are those printers which are designed barcode producing the tags or the barcode label which can be either attached to or even directly printed on the objects. Barcode printers make use of the thermal transfer printers or direct thermal printers for creating label of these 2 methods, the direct thermal costs less but the label produced using this method may become illegible when they are exposed to direct sunlight, chemical vapour or heat.

Barcode printers are fast, can store large amounts of papers and are more durable. Barcode are most commonly used for labeling the cartons before shipment or for labeling the retail items with EANs and UPCS. Also, the barcode printers built for industries are mostly used in manufacturing.

PVC CARD PRINTER

PVC cards / Plastic cards have a smooth surface due to which the traditional inkjet or laser printers cannot be used for printing on them. Due to using different ribbons and print technologies, PVC card printers can be used for making almost any type of design.

Dot Matrix Printer

Dot Matrix printers are also known as impact matrix printing. Dot Matrix printers use a printing process in which the ink will be applied on the surface of the paper / layout. The pins in the Dot Matrix printer strike a ribbon which is coated by ink and force the contact in between the ribbon and the paper. This creates a small dot on the paper and the final dot matrix image is created when these individual dots are combined.

Dot Matrix printers are also best for
Used in pos terminals, service companies (com-
panies oriented) cash registers and AIMS etc.

Microsoft

Excel

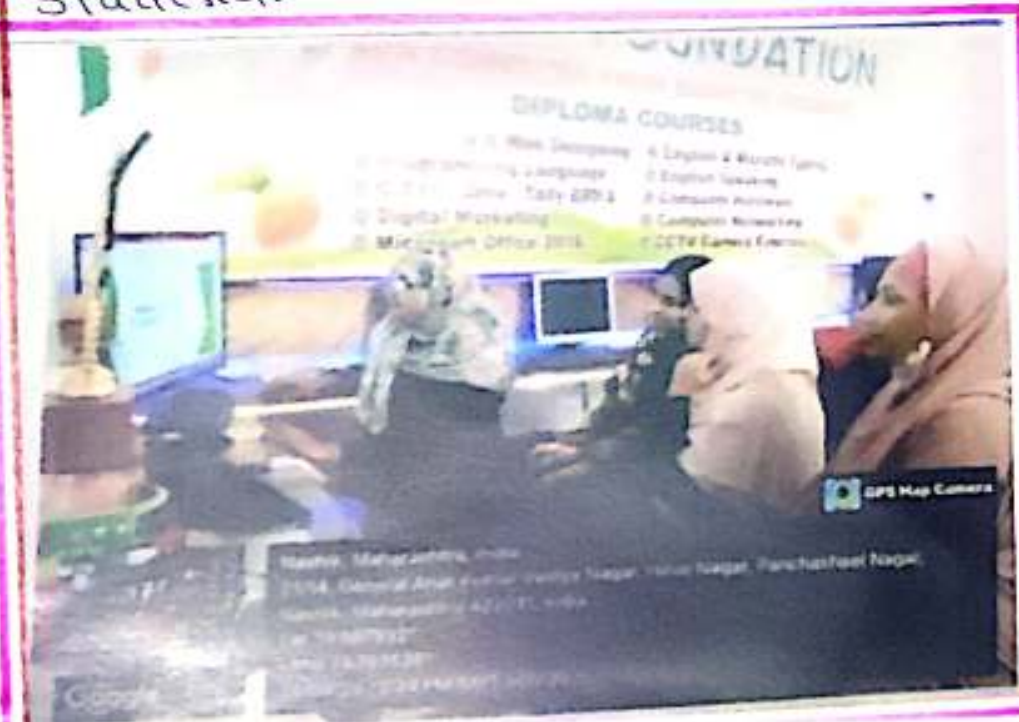

Microsoft Excel enables Users to format, organize and calculate data in a spreadsheet. By organizing data using software like Excel, data analysts and other users can make information easier to view as data in added boxes called ordered in rows and columns. Generally, Excel functions as software for processing numbers but in detail, this software is also used to create, edit, analyze and summarize data. Project Introduction

Q. What is Internship & its benefits?

An internship is an introductory position & is often a way into a particular industry or career path. Companies may hire fresh graduates or final-year students for a defined period. An organisation may or may not pay for this opportunity, as the primary purpose is for interns to gain valuable experience - students typically apply for internship opportunities during their undergraduate or graduate courses & may work in the role of one or more months, either part-time or full time. They might work as an intern during a semester or quarter, & their classes may or may not continue during this time.

There are many benefits of an internship, including helping you to gain valuable work experience & fulfil college requirement, help you explore your unique interests & determine your career goals. It may even give you relevant experience that you can add to your resume -

Q. What is Digital Marketing ?

Digital marketing is the use of websites, apps, mobile devices, social media, search engines, & other digital means to promote & sell products & services. Digital marketing involves many of the same principles as traditional marketing & is often considered & additional way for companies to approach consumers & understand their behavior. Companies often combine traditional & digital marketing techniques in their strategies. But digital marketing also comes with its own set of marketing challenges. Digital marketing started to become popular with the widespread adoption of the internet in the 1990s.

Types of Digital Marketing Channels.

Digital marketing channels have evolved since the 1990s & continue to do so. Here are eight of the most common channels in use today

Website marketing

Companies often use their own website as the centerpiece of their digital marketing activities. The most effective websites represent the brand and its products and services in a clear and memorable way. A website today must be fast-loading, mobile-friendly, & easy to navigate.

Pay-Per-Click Advertising

Pay-per-click (PPC) advertising enables marketers to reach audiences on news and other websites & digital platforms through paid ads. Marketers can set up PPC campaigns on Google, Bing, LinkedIn, X (formerly Twitter), Pinterest, & Facebook & show their ads to people searching terms related

to their products or services. These campaigns can segment users based on their demographic characteristics (such as age or gender), or their particular interests or location. The most widely used services for ppc are google Ads and facebook Ads.

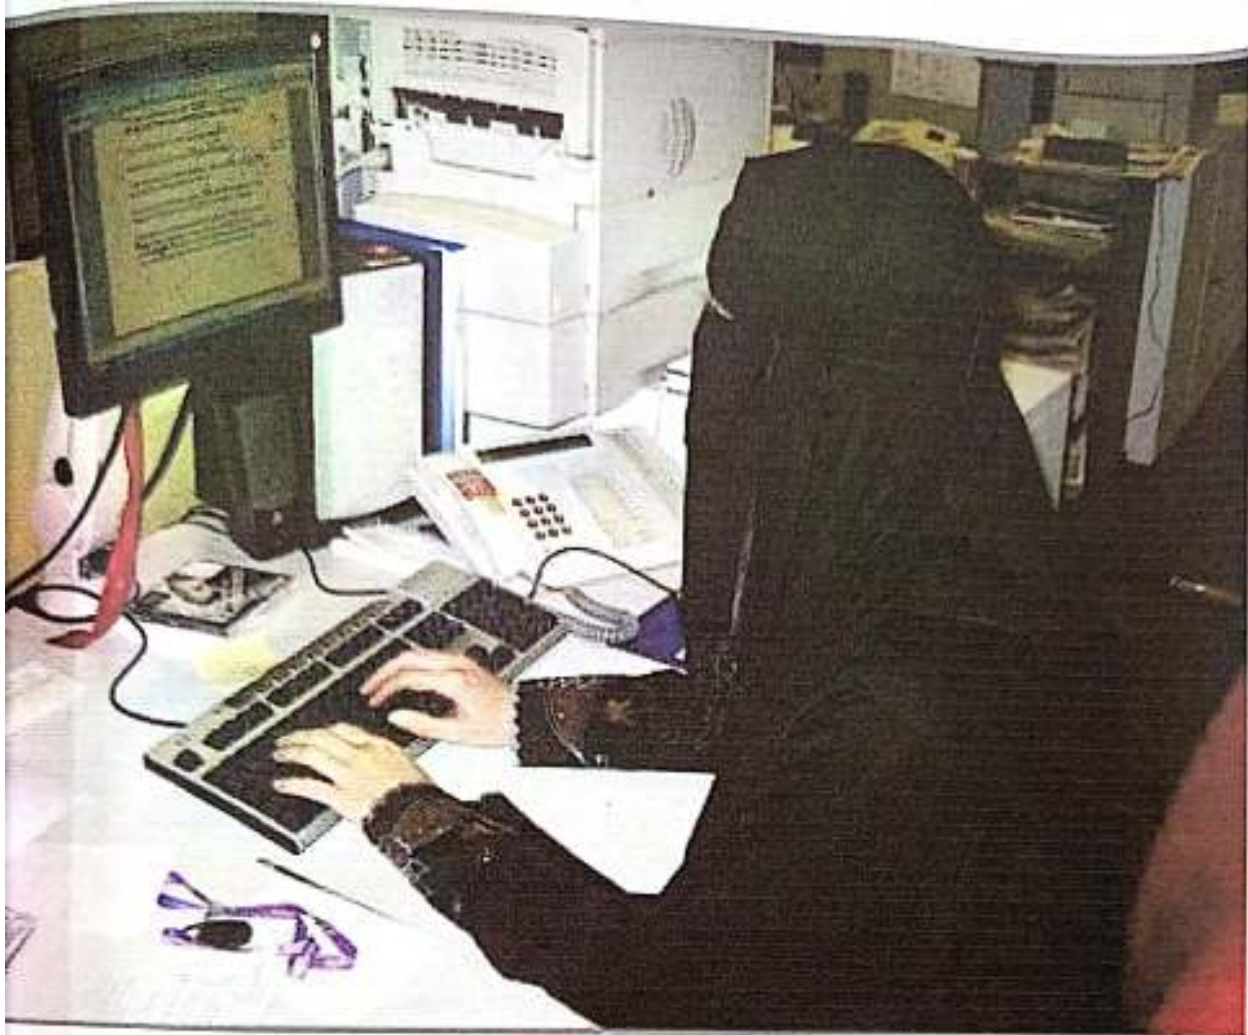

Content Marketing

The goal of content marketing is to reach potential customers through the use of written, visual, or video content that interests them. That content is usually published on a website & then promoted through social media, email marketing, search engine optimization, or even pay-per-click campaigns. Content marketing attempts to be more subtle than advertising, & the product or service the sponsor is attempting to market may or may not be conspicuously highlighted.

Q What Skills are needed in digital marketing?

Strong communication skills are essential if a marketer is going to be successful in telling a company or product story to potential customers. Data analytic skills are also important for understanding how well a marketing campaign is performing & where it might be improved. Finally, social media skills are another must.

ACCOUNTING

What is Accounting?

Accounting is the process of recording, classifying and summarizing financial transactions. It provides a clear picture of the financial health of your organization and its performance, which can serve as a catalyst for resource management and strategic growth.

Why Accounting Is Important

Accounting information exposes your company's financial performance; it tells whether you're making a profit or just running into losses at the end of the day. This information is not just available to you, but also to external users such as investors, stakeholders and creditors who would want to be enlightened about your business, to figure out whether it'll be a good choice to invest in and what they can expect in returns. Besides playing a key role in providing transparency for stakeholders, accounting also ensures you make informed decisions backed by data.

Features of Computerized Accounting

It has the following features:

- **Data storage:** Through computerized accounting system, users can store the data in a centralized location. Due to this digital storage, the data remains secure without the risk of being stolen.
- **Automates processes:** Through computerization, processes are automated which reduces manual efforts, increases efficiency and reduces the scope of error. Overall, it improves reporting of statements and transactions.
- **Scalable in nature:** This system is scalable due to which adjusts to different business volume. Due to this flexibility, it is useful for business of any size.
- **Multiple features:** According to the needs of a business, there are several computerized software for accounting that comes with features such as multiple user access and inventory management.

How to learn computer typing?:

Follow these steps to improve your typing skills:

Familiarize yourself with the keyboard.

Familiarize yourself with the proper hand position on the keyboard.

Learn the proper typing position.

Start by typing slowly to avoid mistakes Practice often.

Typing rules:

Rules for touch typing:

Never look at the keyboard, a mandatory touch typing tip.

Even with those awkward symbols and especially with UPPER & lower case letters.

Focus on Accuracy.

Find the Index Keys.

Practice, practice and practice some more.

Look Straight.
Take a Break.

can I start typing?

Typing tips:

Maintain a healthy posture.

Familiarize yourself with the keyboard layout.

Start typing with touch typing.

Press each key with the proper finger.

Each key has to be pressed by the same finger all the time.

Take a typing speed test to keep track of your progress.

What is type formula?

The TYPE function is useful when the behavior of another function depends on the type of value in a particular cell. If we are using functions that accept different types of data, TYPE can be used to find out what type of data is returned by a function or formula.

What is typing formula?

Total Typed Words = 316 Correct Words = 316 Incorrect Words = 0
Gross words per Minute (GWPM) = $316/10 = 31.6$ words per minute
Net words per Minute (NWPM) = $316/10 = 31.6$ words per minute
Accuracy = $31.6 * 100 / 31.6 = 100\%$
Hence, actual typing speed of the candidate is 31.6 words per minute.

Which typing method is best?

The most important technique to learn to type faster is touch typing. This is a technique based on developing muscle memory for your fingers, & this is done by combining several other typing techniques into it.

How to type MS Word?:**Here are the steps to do so:**

Open Word document.

Place the cursor where you want the text.

Start typing or delete to edit existing text.

How to practice typing?:

Keyboard scheme

Hit keys only with the fingers for which they have been reserved.

Always return to the starting position of the fingers

"ASDF – JKL;".

Establish and maintain a rhythm while typing.

When typing, imagine the location of the symbol on the keyboard.

Follow these steps to improve your typing skills:

Familiarize yourself with the keyboard.

Familiarize yourself with the proper hand position on the keyboard.

Learn the proper typing position.

Start by typing slowly to avoid mistakes.

Practice often.

Text in computer:

Text usually refers to all the alphanumeric characters specified on the keyboard of the person engaging the practice, but in general text means the abstraction layer immediately above the standard character encoding of the target text.

What is computer 100 lines:

Paragraph on the Computer in 100 Words:

A computer is an electronic device that was discovered by Charles Babbage. He is known as the father of computers. There are various parts to a computer. The four major parts of a computer are the mouse, keyboard, monitor & CPU.

Uses of computer typing:

Typing helps you improve & learn new skills through a computer or any other device that is keyboard based. From learning to code to learning a new language online, you can improve your employability & marketability just because your typing skills accelerate these learning processes.

How to type correctly?:

Proper finger placement lets your fingers easily reach the other keys on the keyboard, which enhances both speed & accuracy.

When you type, you should always keep your fingers positioned on the home row keys.

The home row keys are A, S, D, F, J, K, L, & ;.

F1 TO F12:**THE TIME-SAVING FUNCTION KEY SHORTCUTS YOU NEED TO KNOW:**

F1 – Opens the Help screen for almost every program.

F2 – Allows you to rename a selected file or folder.

F3 – Opens a search feature for an application that is active at the moment.

F4 – Alt + F4 closes the active window.

F5 – Allows you to refresh or reload the page or document window.

F6 – Moves the cursor to the address bar in most Internet browsers.

F7 – Used to spell check and grammar check a document in Microsoft Apps (e.g. Word).

F8 – Used to access the boot menu in Windows when turning on the computer.

F9 – Refreshes a document in Microsoft Word & sends & receives emails in Outlook.

F10 – Activates the menu bar of an open application. Shift + F10 is the same as right clicking.

F11 – Enters and exits full screen mode in Internet browsers.

F12 – Opens the Save As dialog box in Microsoft Word.

Conclusion Of On Job Training

In Conclusion, on the job training is valuable today's ever-evolving workforce. This approach to learning provides employees with real-world experience & hand an opportunities. Employees gain a dapa understanding of their roles & responsibilities by Immersing themselves in practical scenarios upon completing O.J.T. Students improve their communication, self development & self confidence.

इतिहास विभाग क्षत्रिय भेट अहवाल

महात्मा गांधी विद्यामंदिर संचलित महाराजा सयाजीराव गायकवाड महाविद्यालयातील इतिहास विभागातर्फे स्थानिक इतिहासाचा अभ्यास व्हावा या हेतूने विभागातील विद्यार्थ्यांना मालेगाव शहरातील मध्ययुगीन व ब्रिटिश कालीन वास्तूंची माहिती मिळावी याकरिता क्षत्रिय प्रबंध भेट काढण्यात आली. या भेटीमध्ये मालेगाव येथील भुईकोट किल्ला हा मध्ययुगीन कालखंडातील असून पेशवे सरदार नारो शंकर दाणी यांनी मोसम गिरणा संगमावर हा किल्ला बांधलेला आहे. तो मध्ययुगीन वास्तू कलेचा उत्कृष्ट नमुना आहे. हा किल्ला आजही सुस्थितीत आहे. महाविद्यालयातील विद्यार्थ्यांना या किल्ल्याची माहिती मिळावी याकरिता प्राध्यापक आणि विद्यार्थ्यांनी या भुईकोट किल्ल्याला भेट दिली.

भुईकोट किल्ल्यातील बुरुज येथील बांधणी, दगडांची रचना, तोफा ठेवण्याकरता असलेल्या जागा व बंदुका शत्रूवर गोलीबार करण्यासाठी असलेल्या चौक्या इत्यादीची माहिती विद्यार्थ्यांना दिली.

तसेच मालेगाव येथील ब्रिटिशकालीन १८१७ मध्ये कॅथोलिक धरतीचे चर्च ब्रिटिश अधिकाऱ्यांसाठी बांधण्यात आले. त्या चर्च बद्दल संपूर्ण माहिती व्हावी याकरिता ख्रिश्चन धर्मियांचे धार्मिक स्थान व चर्चला भेट दिली. तेथील लेखाचे वाचन करण्यात आले व तेथील ख्रिश्चन फादर यांनी माहिती दिली.

त्यानंतर ब्रिटिश कालीन ख्रिश्चन धर्मियांना दफनभूमीसाठी असलेली जागा अतिशय उत्कृष्ट असा नमुना आहे. तेथेही विद्यार्थ्यांनी भेट दिली व तेथील समाधींची बरीचशी माहिती मिळाली आहे. आज अनेक समाध्या तेथील फलक व दगडे आजूबाजूच्या रहिवाशांनी खराब केले आहेत.

यानंतर भायगाव रोड मालेगाव कॅम्प येथील ब्रिटिशकालीन पारशी लोकांसाठी सुद्धा दफनभूमी होती त्याचीही भेट घेऊन विद्यार्थ्यांना माहिती दिली तसेच मुस्लिम सैनिकांसाठी सन १८५२ मध्ये फलटण मज्जिद म्हणून बांधली गेलेली आहे. कॅम्प येथील सगळ्यात जुनी अशी मज्जिद आहे तेथेही विद्यार्थ्यांनी भेट दिली.

अशा प्रकारे स्थानिक इतिहासाचे महत्त्व इतिहासाच्या अभ्यासकांना व्हावे याकरिता विभागातर्फे क्षेत्रीय भेट देण्यात आली. या भेटीमध्ये इतिहास विभाग प्रमुख प्रा. अजय अहिर व त्याचे सहकारी प्रा. सुभाष अहिरे आणि विद्यार्थ्यांनी सहभाग नोंदविला. प्राचार्य डॉ. चंद्रकांतजी दिघावकर यांनी या उपक्रमाचे कौतुक केले. तसेच अंतर्गत मूल्यमापन विभागाचे डॉ. कल्याण कोकणे यांनीही या उपक्रमाची माहिती घेतली.

EXPLORATION OF IGATPURI FOREST AREA

❖ **Overview:**

Igatpuri Forest is part of the Western Ghats, known for its rich biodiversity and unique ecosystem.

❖ **Activities Conducted:**

- Identification of native plant species, including medicinal plants and endemic flora.
- Observation of ecological interactions between flora and fauna.
- Study of forest stratification and microhabitats.

❖ **Key Learnings:**

- Importance of forests in maintaining biodiversity and regulating climate.
- Role of forest conservation in combating deforestation and habitat loss.
- Traditional uses of forest plants by local communities.

VISIT TO PANDIT JAWAHARLAL NEHRU BOTANICAL GARDEN, NASHIK

❖ **Overview:**

The botanical garden is a well-maintained space that showcases a variety of plant

species, including rare and exotic varieties.

❖ **Activities Conducted:**

- Observation of ornamental plants, succulents, and flowering species.
- Study of plant adaptations in different climatic conditions.
- Discussions on the role of botanical gardens in education, conservation, and recreation.

❖ **Key Learnings:**

- Importance of botanical gardens in preserving genetic diversity.
- Contribution to environmental education and public awareness.
- Maintenance techniques for a sustainable botanical garden.

OUTCOMES AND REFLECTIONS

The visit provided a holistic understanding of plant science, from laboratory-based biotechnological innovations to natural ecosystems and curated botanical collections. It deepened our appreciation for the role of plants in ecological balance, economic development, and cultural significance.

Key outcomes include:

- Strengthened practical knowledge of tissue culture techniques and their applications.
- Enhanced skills in plant identification and ecological observation.
- Greater awareness of the need for conservation and sustainable practices.

CONCLUSION

The field visit was a valuable learning experience, bridging the gap between theoretical knowledge and real-world applications. It reinforced the importance of interdisciplinary approaches in botany, biotechnology, and ecology to address global challenges such as climate change and biodiversity loss.

MoU Report

Report-

The report is about the industrial visit at Dhanvi Polymer Dyane, under the MoU between the Industry and our college. After we had received the invitation letter from the Industry, we visited the industry 23 students and 07 teachers took part in the industrial visit.

Mr Prakash Yeola, CEO of the industry showed us the machinery and the processing of it. The process from raw material to final product was actually shown to us. Our students discussed with him about their queries. The visit was quite fruitful.

Dr. P. S. Pawar expressed the vote of thanks in the office of the manager.

MoU Report

Report-

The report is about the industrial visit at Dhanvi Polymer Dyane, under the MoU between the Industry and our college. After we had received the invitation letter from the Industry, we visited the industry 22 students and 04 teachers took part in the industrial visit.

Mr Prakash Yeola, CEO of the industry showed us the machinery and the processing of it. The process from raw material to final product was actually shown to us. Our students discussed with him about their queries. The visit was quite fruitful.

Dr. P. S. Pawar expressed the vote of thanks in the office of the manager.
